

Spanish Beige Marble Plinths

The Plinth Collection is reimagined in Spanish Marble, showcasing the natural beauty of Spanish Beige Marble through a meticulously hand-tiled stone finish. Defined by clean geometric forms and architectural simplicity, each plinth is designed to elevate the objects it holds while standing as a sculptural piece in its own right.

Available in a range of heights and proportions, the collection can be styled individually or grouped together to create layered displays for sculpture, florals, objects, or lighting. Their versatility allows them to function as both functional pedestals and sculptural furnishings.
